PE and Sports Premium

Review of Spending 2019- 2020

The sports premium had a significant impact on the quality, quantity and variety of PE and physical activity delivered in school during the school year 2019-2020 up until the period of school closures in March. In October, we were able to hire in a climbing wall as a new experience for the children. All of the children, some staff and members of the wider community challenged themselves on the climbing wall which we used to raise money for a local charity.

We were able to offer different after school clubs including Zumba free to the children. This had a significant effect because it involved pupils who hadn't previously attended after school clubs and also encouraged a number of hard- to engage- girls.

We have also been able to continue to embed and resource Forest School across the Early Years.

Specific headline expenditure has included:

Hire of the climbing wall plus staffing

- Enabled every child in school to try out climbing and challenge themselves plus the opportunity was available to the wider community.

Transport for teams to local friendly matches

- Enabled us to send teams to other local tournaments to compete in matches
- Enabled us to release staff to accompany teams to these events

Non-contact time for PE Lead

- Allowed the PE Lead to plan, resource and deliver after school clubs, high quality PE lessons and organise resources
- Also enabled PE Lead to undertake all administration tasks associated with tournaments and matches

Provision of after school club in Zumba

- Enabled access to a different kind of physical activity for children
- Engaged some 'hard-to-reach' girls

First Aid training for PE lead

- PE lead is now qualified first aider

Purchase of specialist coaching sessions

Means that staff learn from a professional coach and children benefit from different teaching style and expertise
